

# Molecular Modeling & Molecular Simulation

## 1. Computer

ajax : 129.112.5.8

## 2. Login: ssh -Y [username@129.112.5.8](mailto:username@129.112.5.8)

For windows: download putty from

<http://www.chiark.greenend.org.uk/~sgtatham/putty/download.html>

Run putty.exe to log into “ajax” using the IP address (129.112.5.8)

For Mac, start a terminal window and run “ssh”

## 3. Accounts

lxr	Xiangru Lin
grzemske	Magalene Grzemske
mdu2	Mingjian Du
dlgongjunyu	Junyu Gong
mzhang	Minzhe Zhang

## 4. Transfer files

sftp [username@129.112.5.8](mailto:username@129.112.5.8)

useful sftp commands:

- change remote directory: cd
- change local directory: lcd
- get files from remote machine: get filename
- put files to remote machine: put filename
- exit from sftp: bye
